THE WORLD.

AN INDEPENDENT DAILY AND WEEKLY NEWSPAPER.

POR Vational Circulation & Family Beading.

The World has now been in existence for a little more than a year. It has attained, in that short period, to the highest rank in American journalism—to a perfectly secure financial basis, and to a circulation, patronage and influence which has only been equalled by other journals after the labors of many

years.

For the coming year no labor or expense will be spared to make The World what it aims to be—the

BEST NEWSPAPER IN AMERICA.

In Politics, The World is independent, but never neutral. It will never lend itself to party service, but will help the good and expose the bad of all parties. A pure morality and a steadfast adherence to

CHRISTIAN PRINCIPLE AND CHRISTIAN TRUTHS, will guard its columns and guide its judgment of men and of events. It is the organ of no man, and no set of men. It is national, always on the side of

THE UNION, THE CONSTITUTION & THE LAWS. It the future, g is has in the past, it will give to the Administration a hearty and vigorous support, because in the war for the Union twenty millions of people have confided to its hands their battles for Liberal Institutions, Good Government, Nationality and Freedom.

meet, Maisonality and Freedom.

The World will oppose all compromises which would barter away the principles for which this war is waged; it will oppose peace itself till the success of the war assures the permanence of peace, and will urge the prescution of the war with economy but with retentless urger, till federal property is recovered and federal ambority is re-established, from the Chesapeake to the Rio Grands.

Our correspondents are stached to the various divisions of the army, will accompany them wherever they go, and by a free use of the telegraph and the mails present in the columns of The World

A COMPLETE HISTORY OF THE WAR,

from day to day and from month to month.

In the Weekly and Semi Weekly editions of The World, especially, large space will be given to

and to all the departments of MANUFACTURING AND MECHANICAL INDUSTRY

To our Foreign Correspondence of course less space will be given in the coming year, but the latest and most important news from London, Paris, Turin, Rome, Syria, China, California, Japan, Egypt and South America, our correspondents will promptly and briefly send us.

ALL THE NEWS

will be found in the columns of The World, & every depart

THE DAILY WORLD.

THE DAILY WORLD.

The Daily World is the most complete Commercial and News Paper published in America. United with the Courier and Enquirer, and preserving all the commercial news and other distinctive features of that journal, it has become the principal advertising medium of the New York Auctioneers. Shipping Merchants, and business men generally. Its Commercial and Market Reports, together with its Reports of all Importations, Foreign and Domestic, and of Exports, and of Foreign and Domestic Ship News, are full, reliable, and give what no business man can do without. Besides these peculiar features, it is unsurpassed in the fullness of its political and miscellaneous news, its correspondence, &c.,&c. It is printed on an imperial quarto sheet, larger than any other two-cent daity.

No Sunday Edition is printed, and a vigilant watch will be kept over its columns, excluding every thing unfit for family reading.

Terms per annum, Six Dollars; Four copies to one address Twenty Dollars. To Clergymen, Five Dollars per annum.

THE SEMI-WEEKLY WORLD.

The Semi-Weekly World is a large quarto sheet, same size as the daily, containing all its news, correspondence miscellany and editoria's, its commercial and market news and always a good original story, or some brilliant produc-tion from the best English novelists and periodical writers. Its cattle market and provision reports make it highly valua-

Three Dollars per annum; Two Copies to one address, Five Dollars; five copies to one address, Eleven Dollars. To clergymen, Two Dollars per year. Single copies, Three Cents. Published Tuesdays and Fridays.

THE WEEKLY WORLD.

The Weekly World contains all the editorials and the most important of all the news matter contained in the duly edition, together with a good original story, or some brilliant production from the best English povelists and periodical ters. In no other weekly paper published in this country there found such full commercial and market reports, and eral news intelligence, combined with so much editorial

Price Two Dollars a year; four copies to one address, Five Dollars; twenty copies, Twenty Dollars. Clergymen can receive the Weckly, single copy, at One Dollar a year. Single copies, Five Cents. Published on Thursdays.

By Our friends in the country will bear in mind that the season for subscribing for city papers is about commencing. A word of commendation of this paper to their neighbors is all that is needed to insure a large increase in its circulation and influence.

and influence.

Postmasters are earnestly requested to aid in the circulation of this paper—especially of the weekly edition. There is probably no way in which they can render a more efficient service to their government than in diffusing authentic information among the people by a liberal patronage to accredited newspapers. They would oblige us by turnishing the names of persons to whom they think it would be desirable to send specimen numbers.

names of persons to whom they think the persons to whom they are said specimen numbers.

Remittances for The World may be made by drafts or bankbills of specie-paying banks, and where the attention of the Postmaster is called to the remittance at the time of mailing the letter, it may be made at our risk.

Specimen numbers sent to any address upon application.

"Four Passes's SEWING MACRIES.—This Machine is tated that it embraces the combina us patents owned and used by Elias Howe Jr., ier & Wilson, and Grover & Baker for which these ies pay tribute. These, together with Parker's Improvements, make it a boautiful machine. They are sold from \$60 to \$120 each. They are very perfect in their mechanism, being adjusted before leaving the manufactory, in such a manuer that they cannot get deranged.—The feed, which is a very essential point in a good machine, is simple, positive and complete. The apparatus for gauging the length of sitich is very simple and effect, fro. The tension, as well as all other parts, is well arranged. There is another feature which strikes your Committee investely, vis: there is no wheel below the table between the steadard, to come in contact with the drup of the operator, and therefore, no danger from oil or dist. This machine makes the double lock eitch, but drain of the operator, makes the double lock ettch, but as the double lock ettch, but to double lock etch, but
